Brief Description:

1. A unified toll fees standardisation (“Standardisation Scheme”) have been implemented to all expressway projects according to the unified toll rate, toll coefficient, calculating method for ramps and rounding principle in Guangdong Province since 1 June 2012. Subsequent adjustment was also adopted in cases that the toll fees had been increased as a result of the implementation of the Standardisation Scheme. For details, please refer to the announcements of the Company dated 31 May 2012 and 17 August 2012. Based on the statistics since the implementation of the Standardisation Scheme, the implementation of the abovementioned policies had certain negative impact on the operational performance of Jihe Expressway, Meiguan Expressway, Shuiguan Extension, Yanpai Expressway, Jiangzhong Project, Guangwu Project and GZ W2 Expressway, while the impact on other projects in Guangdong Province was relatively limited.
2. In addition to the above policy factors, the maintenance works of Jihe East and the reconstruction and expansion works of North Section of Meiguan Expressway had certain negative impact on the toll revenues of the expressways such as Jihe Expressway and Meiguan Expressway. Such works are expected to be completed in early 2013 and by the end of 2013 respectively.
3. Benefit from the adjustment in functional positioning and planning of peripheral area, both the average daily mixed traffic volume and the average daily toll revenue of Changsha Ring Road recorded a relatively rapid growth continuously.

For basic information and historical operational statistics of each toll highways, investors may visit the Company’s website at <http://www.sz-expressway.com> under the sections “Toll Roads & Bridges” and “Operational Statistics”, respectively.

CAUTION STATEMENT

The Board hereby reminds investors that the above operational statistics are based on the Group’s internal records which are unaudited.
