YOY: year-on-year growth rate, as compared to the same period of last year.

Notes:

1. Pursuant to the unified arrangements in Guangdong Province, the expressways in the province implemented the Inter-network Toll of “one network” commencing from 29 June 2014 and fully implemented the toll-by-weight for freight vehicles at the same time. As the amount of data to be processed is rather large and it takes time for system integration upon provincial-wide Inter-network Toll collection, certain operational statistics of the projects in Guangdong Province were recorded based on estimation in monthly settlement and disclosure in recent months. Investors are advised to use such statistics cautiously.
2. Pursuant to the relevant approval and authorisation by the general meeting of the Company and Shenzhen government, toll-free for Meilin to Guanlan section of Meiguan Expressway with a mileage of approximately 13.8 km was implemented from 24:00 on 31 March 2014, and the toll for section from Shenzhen-Dongguan border to Guanlan with a mileage of approximately 5.4 km remained. For details of the adjustment, please refer to the announcements of the Company dated 27 January 2014, 28 March 2014 and 31 March 2014. As there is substantial change on the toll mileage, no YOY change data has been provided for this month.
3. During 1 September 2014 to 27 September 2014, special maintenance was implemented in Guangzhou North Second Ring Expressway and certain section was closed, which had certain negative impact on the peripheral GZ W2 Expressway and Qinglian Expressway.
4. Negatively affected by the further commencement of operation of road networks and the toll sorting model under inter-network toll collection, and the implementation of traffic control measures in Wuhan district, the toll revenue of Wuhuang Expressway recorded a YOY decrease.
5. Maanshan Yangtze River Bridge commenced operation at the end of 2013, the vehicles from Hefei, Anhui to Shanghai do not need to pass through Nanjing, which has caused diversion to the traffic of Nanjing Third Bridge.

For basic information and historical operational statistics of each toll highway, investors may visit the Company’s website at <http://www.sz-expressway.com> under the sections of “Toll Roads & Bridges” and “Operational Statistics”, respectively.

CAUTION STATEMENT

The Board hereby reminds investors that the above operational statistics are based on the Group’s internal records which are unaudited. Differences may arise between such statistics and the data to be disclosed in periodic reports due to completion of certain steps on sorting out the traffic volume and toll revenue data and confirming the results of sorting out such data. Such phasic statistics are for investors’ reference only, investors are advised to use such statistics cautiously.
