Nanjing Third Bridge	25%	—	26	-16.8%	1,191	2.2%

YOY: year-on-year growth rate, as compared to the same period of last year.

Notes:

1. Toll-free policy has been implemented for Nanguang Expressway, Yanpai Expressway and Yanba Expressway from 00:00 on 7 February 2016, resulting in growth of traffic volume of the toll-free projects, which has in turn driven the growth of traffic volume of the connecting Jihe Expressway and Shuiguan Expressway.
2. With the aim of completing the national-wide inter-network toll collection, the classification standard of vehicles and toll-by-weight for lorries are adjusted to be consistent with national standards in Guangdong Province and Hubei Province since the end of June 2015. This will result in certain change in the vehicle category of related projects. Nevertheless, it is expected that it will not have significant impact on the toll revenue and the operating results of the Group. In addition, as the operational statistics of certain projects shall be recorded on the basis of estimation or subject to the adjustment to the previous estimation at the date of monthly settlement and disclosure upon inter-network toll collection, there would be slight deviations in the growth rate of such operational statistics and investors are advised to use such statistics cautiously.

For basic information and historical operational statistics of each toll highway, investors may visit the Company's website at <http://www.sz-expressway.com> under the sections of "Toll Roads & Bridges" and "Operational Statistics", respectively.

CAUTION STATEMENT

The Board hereby reminds investors that the above operational statistics are based on the Group's internal records which are unaudited. Differences may arise between such statistics and the data to be disclosed in periodic reports due to completion of certain steps on sorting out the traffic volume and toll revenue data and confirming the results of sorting out such data, as well as operational statistics of certain projects being recorded on the basis of estimation at the date of monthly settlement and disclosure under the circumstance of inter-network toll collection. Operational statistics in the announcement are only for investors' reference as phasic statistics, investors are advised to use such statistics cautiously.
