Notes:

1. After the opening of Yunzhan section (Yunfu – Zhanjiang) of the Shanzhan Expressway at the end of 2017, Jiangzhan section (Jiangmen – Zhanjiang) of the Shenmao High-speed Railway and Xinyang Phase II section of Yunzhan Expressway (Xinxing – Yangchun) opened in July and September 2018, respectively. Affected by the diversion of these sections, impact of the reconstruction and expansion project of certain sections of Yangmao Expressway and the continuous impact of the implementation of the policy governing over-limit and overloaded vehicles, both the average daily traffic volume and toll revenue of Yangmao Expressway recorded a YOY decrease.
2. Xinyang Phase II section of Yuanzhan Expressway and Guangxi Wuzhou Ring Expressway were opened successively in September and December 2018. Certain vehicles travelling across the provincial boundaries have chosen to use the above-mentioned sections. As a result, the average daily traffic volume and toll revenue of Guangwu Project recorded a YOY decrease.
3. Although the traffic volume of GZ W2 Expressway in September increased by 33.5% YOY, the toll revenue decreased by 1.9% YOY, mainly due to the cancellation of the traffic restrictions on trucks at Foshan First Ring Highway which resulted in a significant YOY reduction in the number of cross-border trucks on GZ W2 Expressway.
